PROFILE SUMMARY

Results-driven Software Engineer specializing in Full Stack Adobe Experience Manager (AEM) development with over 4.3 years of applied experience in building scalable, high-performance web applications. Proficient in AEM core frameworks, Sling/HTL, Adobe Target Apache Felix OSGi, and Java Content Repository. Experienced in Agile environments, collaborating with cross-functional teams to deliver innovative digital experiences aligned with business goals.

EDUCATION

Rajeev Institute of Technology

2020

Bachelor of Engineering (Computer Science and Engineering)

Hassan, Karnataka, India

Graduation: 2020 | CGPA: 7.23

WORK EXPERIENCE

Capgemini

09/2025 - Present

[Epiroc Project](#) - AEM Developer

- Working on the Epiroc project, developing and maintaining components, templates, and dialogs in Adobe Experience Manager (AEM).
- Collaborating with cross-functional teams to implement new features and improve the overall user experience.
- Writing clean, scalable, and efficient code while adhering to best practices and project guidelines.

Accenture

05/2021 - 09/2025

Applications Development Analyst

Bengaluru, India

- Joined Accenture and was assigned to the AEM stream training program, successfully completing hands-on training in Adobe Experience Manager, Java, and web technologies.
- Post-training, assigned to TD Bank as a Content Author, managing AEM content workflows, assets, and digital publishing processes.
- Later transitioned to a development role, contributing to multiple AEM backend initiatives across global client projects, including Caterpillar.

[Caterpillar Project](#)

03/2022 - 2025

AEM Developer

- Engineered advanced AEM 6.5 Touch UI components using Apache Felix OSGi framework for dynamic and scalable solutions.
- Debugged and enhanced AEM Sites applications to ensure seamless user experiences across all touchpoints.
- Developed technical documentation to support ongoing maintenance and team collaboration.
- Worked with GitHub and Git clients such as SourceTree for version control.
- Contributed to best practices for coding standards within AEM development projects.
- Actively contributed to Agile methodology teams.

TD Bank Project

08/2021 - 02/2022

AEM Author

- Designed and published web and mobile content adhering to strict brand standards and usability guidelines.
- Managed AEM workflows and DAM to effectively organize and deploy digital assets.
- Conducted quality assurance checks to ensure high content accuracy and consistency.
- Created and managed engaging content for company blog, increasing readership by 30% over six months.
